Join us in developing a holistic approach to student and staff well-being at the Sacramento Academic and Vocational Academy (SAVA). We believe in setting high academic expectations while providing comprehensive mental health support for all individuals. By integrating social and emotional support into individualized academic plans from the beginning, we aim to equip students with the necessary skills and resources to achieve their academic and career goals beyond high school.

Objectives

1. Develop a comprehensive mental health support system for students and staff.
2. Incorporate social and emotional support within individualized academic plans.
3. Set high academic expectations and outcomes for students.
4. Foster a collaborative culture among staff to integrate mental health support and individualized academic plans.
5. Ensure equitable access to resources and opportunities for all students.

thriving learning environment.

Introducing the CCSPP Grant: Creating a Comprehensive Approach to Student and Staff Well-being at SAVA!

Together, let's create a comprehensive and integrated approach to student and staff well-being. We greatly appreciate your support in this endeavor. Here's a glimpse of what lies ahead: surveys, meetings, and more. We're thrilled about the opportunities the CCSPP Grant brings to SAVA. Your valuable support and active participation are key as we collaborate to make a positive impact.

Challenge 1: Define Personal Success & Pathways

How can we support students in exploring their interests and passions to define their personal meaning of success? We aim to provide access to realistic pathways that align with their future goals.

Challenge 2: Mental Health Support for All

How can we support the mental health of students, families, and staff? We believe that by empowering all support holders, including families and staff, we can actively promote the well-being of our independent study learners on their path to high school graduation and beyond.
